Question: Do you plan to hold virtual shareholder meetings from now on - after the Covid-19 pandemic has subsided?

Company Response: Our use of a virtual meeting format this year was directly connected to the COVID-19 outbreak. We have not made any decisions about the format of future stockholder meetings at this point. As this is our first time implementing a virtual only stockholder meeting, we will be taking a look at the pros and cons of conducting our meeting virtually going forward. We understand the concerns regarding virtual meetings and want to make sure we do what is best for our stockholders.
